Engineering Intelligence Beyond **Wires**

At Global Link Solutions, we engineer integrated technology solutions for safer, smarter, connected, and more efficient environments.

From security and fire safety to IT, telecommunications, IoT, and automation, we make technology work together seamlessly. We don't just connect technology. We engineer how it works together.

ABOUT OUR COMPANY

A BRIEF STORY ABOUT THE COMPANY

About Global Link Solutions

Global Link Solutions (GLS) is the result of a technology journey that began in the 1970s as an electronics repair center. Over the decades, we evolved through Doniya Electronics, Global Link Electronics & Networks, Global Link Communication & Networks, Global Link IT, and Global Link Security, becoming today's Global Link Solutions.

With decades of hands-on experience across Karachi, Sindh, and the Gulf region, we deliver integrated solutions in Security, Safety, Communication, IT, Networking, IoT, and Automation.

Today, we are expanding nationally and internationally, combining proven engineering experience with modern technology to create smarter, safer, and connected environments.

ABOUT OUR COMPANY

OUR EXPERTISE

Global Link Solutions provides professional consultation, design, project management, facility management, engineering, installation, and system integration across:

- Security Solutions
- Safety & Fire Solutions
- Communication Solutions
- IT & Networking Solutions
- IoT & Automation Solutions

Backed by experienced management and skilled technical professionals, GLS delivers reliable, scalable, and integrated technology solutions tailored to each client's requirements.

From consultation to implementation and ongoing support, we focus on quality, performance, and long-term reliability.

VISION

To shape a world where technology doesn't just connect systems, it connects possibilities.

MISSION

- 01** Serving with Amanah
To serve our clients with honesty, integrity, and responsibility, treating every project as an amanah and striving for excellence in everything we do.
- 02** Creating Benefit Through Technology
To use our knowledge, skills, and technology to protect people, property, businesses, and communities, creating solutions that deliver genuine and lasting benefit.
- 03** Engineering with Ihsan
To pursue excellence in engineering, integration, and service, continuously improving our work and using innovation responsibly for the betterment of society.
- 04** A Purpose Beyond Business
To build a successful and sustainable organization while keeping a higher purpose at heart: to serve people, do good, and seek Allah's pleasure through honest work, beneficial technology, and excellence in service.

KEY FACTORS

DECADES OF EVOLUTION

From an electronics repair center to an integrated technology solutions company, our journey has built deep practical knowledge across generations of technology.

MULTI-DISCIPLINE EXPERTISE

Security, safety, communications, IT, networking, IoT, automation, and infrastructure under one engineering umbrella.

END-TO-END CAPABILITY

From consultation and design to procurement, installation, integration, commissioning, and ongoing support.

FIELD-PROVEN EXPERIENCE

Practical project experience across Karachi, Sindh, Pakistan, and the Gulf, serving diverse commercial, industrial, institutional, and residential environments.

TECHNOLOGY INTEGRATION

We connect different technologies and platforms into coordinated systems designed to work together intelligently.

SMARTER SYSTEMS. STRONGER CONNECTIONS

- | HOME & BUILDING AUTOMATION
- | SECURITY & SAFETY SYSTEM
- | ICT TECHNOLOGIES
- | FIRE ALARM & FIRE FIGHTING
- | SOLAR ENERGY

SERVICES

CONSULTATION

We begin before we build.

At Global Link Solutions, consultation is where technology meets understanding. We study your environment, challenges, risks, operations, and future requirements before recommending a solution.

Our experienced team looks beyond individual products to understand how systems should work together. From security and safety to communication, IT, IoT, and automation, we develop practical strategies that are scalable, efficient, and built around your real needs.

Understand. Engineer. Integrate.

- | HOME & BUILDING AUTOMATION
- | SECURITY & SAFETY SYSTEM
- | ICT TECHNOLOGIES
- | FIRE ALARM & FIRE FIGHTING
- | SOLAR ENERGY

SERVICES

DESIGN

We design the system before we install the solution.

At Global Link Solutions, design is where requirements become an engineered blueprint. We transform your needs, environment, and future plans into practical, scalable, and integrated system designs.

From security and communication to IT, IoT, automation, and smart infrastructure, we design every element to work together efficiently, with careful attention to performance, reliability, usability, and future expansion.

Designed with Purpose. Engineered to Work Together.

| HOME & BUILDING AUTOMATION
| SECURITY & SAFETY SYSTEM
| ICT TECHNOLOGIES
| FIRE ALARM & FIRE FIGHTING
| SOLAR ENERGY

SERVICES

PROJECT MANAGEMENT

We turn plans into controlled execution.

At Global Link Solutions, project management brings every moving part together. We coordinate people, technology, timelines, resources, and quality from planning through implementation, testing, commissioning, and handover.

Our project managers maintain clear communication and disciplined execution, ensuring projects stay organized, efficient, on track, and aligned with the agreed scope while minimizing disruption to your operations.

Plan. Coordinate. Execute. Deliver.

| HOME & BUILDING AUTOMATION
| SECURITY & SAFETY SYSTEM
| ICT TECHNOLOGIES
| FIRE ALARM & FIRE FIGHTING
| SOLAR ENERGY

SERVICES

SUPPLY

We source the technology that makes the solution possible.

Global Link Solutions provides carefully selected security, safety, IT, communication, networking, and smart technology from trusted manufacturers and suppliers. We focus on the right technology for the right application, balancing quality, performance, compatibility, availability, and value.

Right Technology. Right Application.

- | HOME & BUILDING AUTOMATION
- | SECURITY & SAFETY SYSTEM
- | ICT TECHNOLOGIES
- | FIRE ALARM & FIRE FIGHTING
- | SOLAR ENERGY

SERVICES

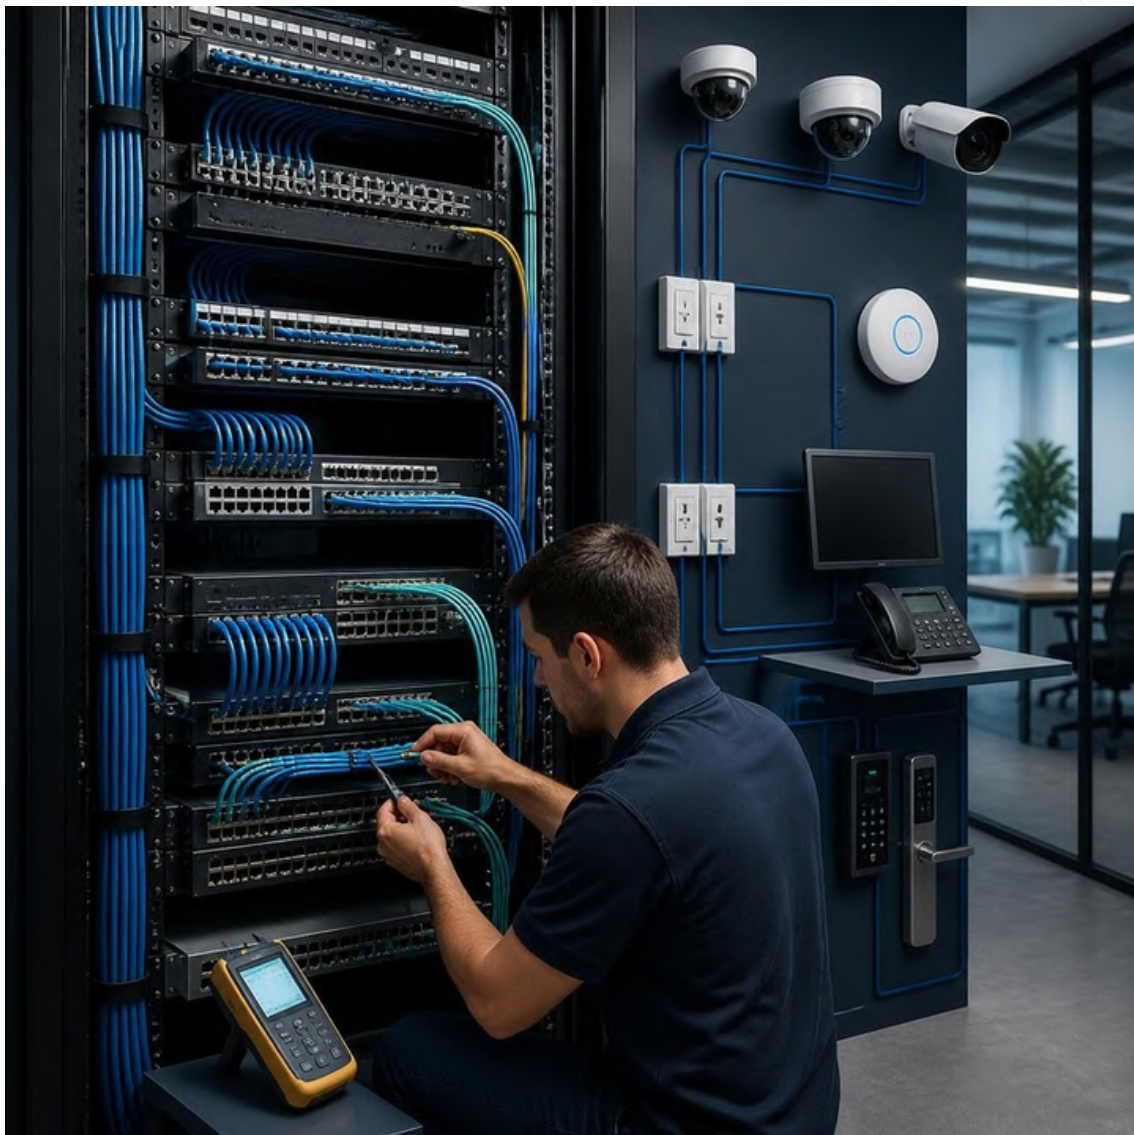

CABLE NETWORKING

We build the infrastructure technology depends on.

From structured cabling to network infrastructure, we design and install reliable connectivity that supports security, communication, IT, IoT, and smart systems.

Our approach focuses on clean installation, dependable performance, scalability, and future expansion.

Connected by Design. Built to Perform.

- | HOME & BUILDING AUTOMATION
- | SECURITY & SAFETY SYSTEM
- | ICT TECHNOLOGIES
- | FIRE ALARM & FIRE FIGHTING
- | SOLAR ENERGY

SERVICES

INSTALLATION & CONFIGURATION

We turn equipment into working systems.

Our technical team handles professional installation, configuration, testing, commissioning, and optimization to ensure every system performs as intended. We focus on effectiveness, efficiency, reliability, and compatibility, delivering solutions suited to real operational and market requirements.

Installed Right. Configured Right.

- | HOME & BUILDING AUTOMATION
- | SECURITY & SAFETY SYSTEM
- | ICT TECHNOLOGIES
- | FIRE ALARM & FIRE FIGHTING
- | SOLAR ENERGY

SERVICES

INTEGRATION

We make different systems work as one.

Global Link Solutions integrates security, safety, communication, IT, IoT, and automation into coordinated environments that are easier to operate, monitor, and manage.

Whether residential, commercial, industrial, or institutional, we engineer the connections that make technology work together.

One Environment. Connected Intelligence.

- | HOME & BUILDING AUTOMATION
- | SECURITY & SAFETY SYSTEM
- | ICT TECHNOLOGIES
- | FIRE ALARM & FIRE FIGHTING
- | SOLAR ENERGY

SERVICES

AI TECHNOLOGIES

We turn data into intelligence.

We apply AI to security, surveillance, safety, automation, and operations to help systems see, understand, predict, and respond more intelligently.

From AI-powered video analytics to intelligent automation, we use technology where it creates measurable value.

From Data to Intelligence.

SOLUTIONS - SAFETY

DETECT EARLY. RESPOND FASTER. PROTECT LIVES.

EMERGENCY & LIFE SAFETY INTEGRATION

Connect fire alarms, emergency alerts, evacuation systems, monitoring, and other safety technologies into a coordinated response environment.

CONNECTED SYSTEMS. INTELLIGENT RESPONSE. SAFER BUILDINGS.
All life safety systems working together through one intelligent platform.

FIRE ALARM SYSTEM
Advanced detection and alarm to protect building occupants and assets.

EMERGENCY LIGHTING
Illuminate paths and critical areas during power loss or emergency.

PUBLIC ADDRESS SYSTEM
Deliver clear instructions and real-time messages across the building.

EVACUATION INDICATORS
Guide occupants to safety with visible and intuitive indicators.

SAFETY MONITORING
Monitor system health, environmental conditions and ensure compliance around the clock.
